BRITISH INNOVATION GLOBAL CONSCIENCE

LED Headlight

**LIGHTER AND
BRIGHTER**

Our new headlight is an anatomically designed, single fit device that provides wireless high intensity LED light with unparalleled battery life. This is further enhanced by a quick release power pack change feature which provides near continuous use.

After two years of research and development we are immensely proud of our headlight. This is a very British product, designed and developed in Sheffield and supporting UK manufacturing.

ANATOMICALLY DESIGNED for a perfect fit
